PEDIATRIC ALLERGY/IMMUNOLOGY

XpertCare is a telemedicine company with a network of top pediatric subspecialists who provide consultations remotely using a HIPAA compliant platform. XpertCare subspecialists provide e-Consults on Allergy/Immunology cases to primary care providers who do not have access to pediatric subspecialists. Our hand-picked pediatric Allergist/Immunologists are highly trained and have experience providing consultations to primary care providers. XpertCare's turn-around time is between 24 hours – 48 hours

XPERCARE PROVIDES SUBSPECIALTY E-CONSULTS ON THE FOLLOWING ALLERGY/IMMUNOLOGY CASES:

- Eosinophilia
- Elevated IgE
- Asthma
- Seasonal Allergies
- Allergic Rhinitis
- Sinusitis
- Recurrent Infections
- Drug Allergy
- Rashes
- Eczema
- Contact Dermatitis
- Bee Sting Allergy
- Food Allergy

A six-year old male with a history of mild eczema presents to his primary care physician with intermittent hives for 3-4 weeks. Mom is concerned about food allergy and IgE testing reveals elevated antibodies to wheat, egg and soy. Patient has no history of angioedema, no recurrent upper or lower respiratory symptoms. Should the patient avoid these foods? Does this patient need an epinephrine auto-injector? Are there additional labs that should be ordered? An expert consultant will reach out to you within 24 hours of receiving your consultation request Monday to Friday, 9 AM – 5 PM (EST). A written summary of the recommendations will be provided to you within 48 hours of the consultation.
