DIGITAL CLINIC

This service is available to residents of California ONLY.

XpertCare Digital Clinic offers high-quality, convenient, pediatric care to families throughout California. We understand just how valuable time is. We also understand that a typical visit to the pediatrician often drains this time by requiring you to re-arrange schedules, travel to (and from) the medical office, and wait patiently for your turn to see the doctor.

You don't plan on having a sick kid. It just happens. And, when it does, you need an effective and convenient solution.

What if you could have access to highly-experienced doctors without having to waste precious time?

With the creation of the XpertCare Digital Clinic, we have eliminated all the hustle and made it simple for parents and guardians to book an appointment and see a pediatrician with a click of a button.

It's that simple.

With our expertly-trained and experienced providers, we offer modern, High-Quality, and Accessible services to children under 18 years of age residing in California. Leveraging the power of technology, we are able to offer the following services:

MEET OUR PROVIDERS

LISA DI ENNO, MD

Medical School:

Uniformed Services University of the Health Sciences in Bethesda, Maryland

Residency:

Naval Medical Center, Portsmouth, Virginia

Dr. Lisa Di Enno is the Medical Director of XpertCare Medical Group and the Digital Clinic in California. Dr. Di

Enno is a board-certified general pediatrician with over five years of clinical experience caring for our nation's littlest heroes - the children of our military's active-duty personnel. Her time in the Navy has been spent attending deliveries of both well and critically ill babies, providing routine well-care and acute visits for kids of all ages, assisting the ER with emergency consultations, and mentoring trainees at all levels of medical education.

While she is very sad to be leaving her military kids and families, Dr. Di Enno is excited to begin a new chapter in her career as a civilian pediatrician. Using the latest digital technology, she is looking forward to reducing the burden on parents by bringing quality medical care to busy families in the comfort of their own homes.

SONAL PATEL, MD
